Thanks Jeff.

We'll take care of these and report back once completed.

Would you have a contact for the issue with the gates at Kent Wellington and Lyon that we could call and meet us on site to make sure we address the problem?

Importance: High

As requested.

Also PPS reports gates at Kent Wellington and Lyon have been damaged and pushed down and need to be repositioned.

PPS also reports icy conditions at Queen's gate and other entrance and requested salt be deployed

Hi Benoit;

Don't know if this should go to you but they came in and my folks are all either tasked or on rest before shift work.

Couple of outstanding items I wanted to advise you of (they may be underway, I just don't have an update on them that I can find):

- PPS asked for a gate install, (email attached) and I don't think it got actioned. If you can advise if this can be done etc,

- They also asked to get copies of keys for the gates et door of the TLD area (email attached). They had a small situation yesterday morning and their exterior operations officer were unable to access without the keys to properly respond to the situation.

Hope you can help out or maybe refer me one of your on call folks that are available this weekend.

Sorry to bother you on a Saturday morning, thanks in advance.

Jeff
